

SEVIS Transfer Information

Information About Transferring Your SEVIS Record

If you are currently attending school in the U.S. as an F-1 student, please speak to your international student advisor about transferring your SEVIS record to Saint Mary's. All the information needed to successfully transfer your record to Saint Mary's is included below.

If there is less than five months between the end of your current program and the start of your program at Saint Mary's, then you may stay in the U.S. with the same SEVIS record. If the time between your programs is more than five months, you should consult with your current international student advisor and the Center for International Programs at Saint Mary's.

Directions for the Student

Please complete this form and share it with the international student advisor at your current school.

Student Information

First Name: _____ Last Name: _____

SEVIS Number: _____ Email Address: _____

I would like to transfer to Saint Mary's College of California for the following term and location:
